FHI Color Guide

PANTONE®

The color fan is divided into two main sections. The upper section is a semi-circle containing 10 rows of color swatches. Each row contains 10 swatches, with the word 'PANTONE' printed above each. The colors transition from dark green and blue on the left, through various shades of purple and pink, to bright red and orange on the right. The lower section is a horizontal row of 10 neutral color swatches, each with a label indicating its name and Pantone code.
